Cartoon Movie Announces Selected Projects

Submitted by frank grimshaw on Tue, 2009-01-27 16:46. Events

Cartoon Movie, which this year moves to Lyon, is an opportunity for European producers to present their animation projects to about 500 professionals in order to negotiate financing, find partners and to interest distributors.

Out of 77 submissions, the Selection Committee picked 50 animated features projects, which demonstrate the high quality and creativity of European animation. More than 390 participants have already registered, including 73 distributors, who will get the unique opportunity to discover a sneak preview of these future films.

For the first time, the game industry will also be represented among the participants. Indeed, a bridge between animation and games professionals can benefit to both industries in this ever-evolving multimedia market.

Cartoon Movie takes place March 4th - 6th for details of the selected projects see [here](#)
