HARRY AND BIP - SUMMER SEASON

52 X 11' | 4-5 YEARS | 3D COMPUTER

Harry and Bip are two brothers ready to have the summer of their lives. Only problem... these young penguins live in Antarctica. The vast icy plain they call their home doesn't have a whole lot going on. But that's never stopped Harry and Bip – they are great at making their own fun, and will slip, slide and splash through the neighbourhood causing mayhem for their Walrus neighbours and the rest of the penguin flock. With their mum gone down south with the rest of the female penguins, Harry and Bip are home alone with their absent-minded dad. While Bip would be happy tapping on his tablet computer all summer, Harry is ready to get out and about – and he's going to bring Bip along with him!
